Subject: Company Approval for Travel - 15 MAR 2021

Dave, Candi, Fred and Ammon,

Please see the attached Travel Approval Matrix. There is travel to approve at the company level for Jacobs, Aerodyne, GCS, HX5 and MEIT. HX5 company approval will be pursued under separate cover using DoD Safe.

Please indicate your company's approval with a reply to all.

For ETB21-1 (Germany) we have additional travelers: Johnson, Elkins, Colville, and Adamson. Rezzonico, Cranmer, Dunning and Burnett will not be making that trip.

Dave – As you will see on the matrix, Mark Ponti is currently in a travel status to Ford Island, HI. I dropped the ball on this. His request for company approval was sent up by Andy on 1 MAR and

approved by GOVT on 2 MAR. I was sent both emails, but I missed including them in prior approval matrices. Andy and I have spoken and he'll be reminding the Event Leads of the need to obtain company approvals in advance of travel.

v/r,
Mary
